## Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] in titles are given for information, but do not appear on the title pages of the publications catalogued. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

# General Information

The Superintendent of Documents, Government Printing Office, Washington, DC, is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

## PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

## LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

## CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

## HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (\*) preceding the price. Those for sale by the Clearinghouse for Federal Scientific and Technical Information are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A daggar (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

### HOW TO REMIT

Remittances for documents marked with an asterisk (\*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittance should be made either by international money order or draft on an American bank.

*Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.*

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

### LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

## Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

# General Information

The Superintendent of Documents, Government Printing Office, Washington, DC, is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

## PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

## LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

## CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

## HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (\*) preceding the price. Those for sale by the Clearinghouse for Federal Scientific and Technical Information are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

### HOW TO REMIT

Remittances for documents marked with an asterisk (\*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittance should be made either by international money order or draft on an American bank.

*Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.*

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

### LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

- 13103 D-5309. Data-reduction technique for determining rapidly rising heating rates to thermally thick walls [with list of references]; by James L. Dillon, Robert L. Wright, and G. Louis Smith. July 1969. cover title, [1]+27 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13104 D-5312. Analog computer study of low-frequency flow dynamics of 2 nuclear-rocket cold-flow engine systems [with list of references]; by Harry W. Fox, Jr., and Ronald J. Blaha. July 1969. cover title, iii+82 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13105 D-5313. Growth of 2H silicon carbide crystals [with list of references]; by J. Anthony Powell. July 1969. cover title, ll+13 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13106 D-5317. Calculation of elevated-temperature cyclic life considering low-cycle fatigue and creep [with list of references]; by David A. Spera. July 1969. cover title, ll+23 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13107 D-5320. Fabrication process for glass coated electron bombardment ion thruster grids [with list of references]; by Bruce A. Banks. July 1969. cover title, ll+38 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13108 D-5321. Comparison of rotational collision numbers obtained from different definitions [with list of references]; by Frank J. Zeleznik. July 1969. cover title, ll+45 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13109 D-5326. Corrosion in cobalt alloy, two-phase mercury loop [with list of references]; by Alex Vary [and others]. July 1969. cover title, ll+34 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13110 D-5329. Excited states of xenon-130 populated by beta decay [with list of references]; by Theodore E. Fessler, Glenn M. Julian, and S. Jha. July 1969. cover title, ll+17 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13111 D-5330. Characteristics design study of mixed-compression 2-dimensional inlets with low-angle cowls for Mach number range 2.70 to 1.80 [with list of references]; by Bernhard H. Anderson. July 1969. cover title, ll+35 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13112 D-5331. Dynamic performance analysis of fuel-control valve for use in air-breathing engine research [with list of references]; by Peter G. Batterton and John R. Zeller. July 1969. cover title, ll+27 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13113 D-5333. Effects of jet-exhaust location on longitudinal aerodynamic characteristics of jet V/STOL model [with list of references]; by Arthur W. Carter. July 1969. cover title, [1]+133 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13114 D-5335. Finite-step method for calculation of theoretical load distributions for arbitrary lifting-surface arrangements at subsonic speeds [with list of references]; by James A. Blackwell, Jr. July 1969. cover title, [1]+40 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13115 D-5336. Gaseous-hydrogen requirements for discharge of liquid hydrogen from 1.52-meter-(5-ft-) diameter spherical tank [with list of references]; by Robert J. Stochl [and others]. Aug. 1969. cover title, ll+62 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13116 D-5338. Dynamic response of Mach 2.5 axisymmetric inlet with engine or cold pipe and utilizing 60 percent supersonic internal area contraction [with list of references]; by Joseph F. Wasserbauer. July 1969. cover title, ll+58 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13117 D-5339. Analysis of dynamic response of liquid jet atomization to acoustic oscillations [with list of references]; by Marcus F. Heidmann and John F. Groeneweg. July 1969. cover title, ll+43 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13118 D-5340. Semiempirical fracture analysis for small surface cracks [with list of references]; by Thomas W. Orange. July 1969. cover title, ll+30 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13119 D-5342. Simultaneous usage of attitude control for VTOL maneuvering determined by in-flight simulation [with list of references]; by Frank R. Niessen. July 1969. cover title, [1]+11 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13120 D-5343. Shock shapes and pressure distributions for large-angle pointed cones in helium at Mach numbers of 8 and 20 [with list of references]; by David A. Stewart and Mamoru Inouye. July 1969. cover title, [1]+20 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13121 D-5346. Upwash patterns on ablating and nonablating cones at hypersonic speeds [with list of references]; by John B. McDevitt and Jack A. Mellanthin. July 1969. cover title, [1]+32 p. ll. 4°  $\Phi$  Paper, \$3.00.
- 13122 D-5347. NERVA control drum actuator irradiation test program [with list of references]; by David J. Robinson, John T. Mayer, and Richard R. Wyer. July 1969. cover title, ll+44 p. ll. 4°  $\Phi$  Paper, \$3.00.

## LIST OF DEPOSITORY LIBRARIES AS OF SEPTEMBER 1, 1969

Under provisions of Title 44 of the United States Code, certain libraries are designated depositories for Government publications. Through them Federal Government documents are made available to residents of every State, District of Columbia, Guam, Puerto Rico, and the Virgin Islands. Distribution to the libraries is made by the Office of the Superintendent of Documents.

It is sometimes impossible to obtain desired publications by purchase from the Superintendent of Documents. Stocks may have been exhausted or the document may be permanently out of print. In these instances the depositories render an invaluable service by keeping such publications permanently available. Every Government publication cannot be consulted at all depository libraries. Designated Regional Depositories are required to receive and retain one copy of all Government publications made available to depository libraries either in printed or microfacsimile form. All other libraries are allowed to select the classes of publications best suited to the interests of their particular clientele.

The following list shows the location, the name of the library, the year the library became a depository, and the administrative control number assigned to each.
